CONTENTS OF VOLUME 50, 1960

No. 1—JANUARY

Influence of soil temperature on seedling blight of smooth bromegrass
IVAN J. THOMASON AND J. G. DICKSON 1

A strain of cucumber virus 1 infectious to blight-resistant spinach
S. P. DOOLITTLE AND R. E. WEBB 7

Hydrolytic and respiratory enzymes of species of Ditylenchus and Pratylenchus
L. R. KRUSBERG 9

Effect of growing crops and crop residues on soil fungi and seedling blights
LANSING E. WILLIAMS AND A. F. SCHMITTHENNER 22

Influence of boron nutrition of Nicotiana tabacum on the multiplication of tobacco mosaic virus ROBERT J. SHEPHERD AND GLENN S. POUND 26

Similar metabolic alterations induced in sweet potato by poisonous chemicals and by Ceratostomella fimbriata I. URITANI, M. URITANI, AND H. YAMADA 30

The antigenic characteristics and the relationship among strains of alfalfa mosaic virus
J. B. BANCROFT, ELLEN L. MOORHEAD, J. TUITE, AND H. P. LIU 34

Survival of physiologic races of Puccinia graminis var. tritici on wheat near barberry bushes C .W. ROANE, E. C. STAKMAN, W. Q. LOEGERING, D. M. STEWART, AND W. M. WATSON 40

Inheritance of resistance to Fusarium wilt in Upland and Sea Island cottons as complicated by nematodes under field conditions A. L. SMITH AND J. B. DICK 44

Inoculation of slash pine seedlings with Cronartium fusiforme F. F. JEWELL 48

Differential longevity of teliospores of pathogenic races of Tilletia caries and T. foetida
E. L. KENDRICK AND C. S. HOLTON 51

A new source of resistance to spinach blight
R. E. WEBB, BRUCE A. PERRY, HENRY A. JONES, AND D. M. MCLEAN 54

Physiology of Fusarium solani f. phaseoli in relation to saprophytic survival in soil
OTIS C. MALOY 56

The effect of environment on germination of sporidia in Cronartium ribicola
ROBERT V. BEGA 61

A precision spray technique for evaluating oils for Sigatoka disease control on individual banana leaves in the field
L. CAUPOUZOS, W. A. BRUN, T. THEIS, AND C. COLBERG 69

Inheritance of resistance to potato virus Y derived from two strains of Capsicum annuum A. A. COOK AND C. W. ANDERSON 73

Onion blast or leaf spotting caused by species of Botrytis
R. H. SEGALL AND A. G. NEWHALL 76

Report and abstracts of the 1959 annual meeting of the Pacific Division of the American Phytopathological Society 82

PHYTOPATHOLOGICAL NOTES

An enrichment method for isolating actinomycetes that produce diffusible antifungal antibiotics PETER H. TSAO, CURT LEBEN, AND G. W. KEITT 88

On the infectivity curve of plant viruses ALBERT SIEGAL 89

Book listings 90

No. 2—FEBRUARY

Physiological factors affecting the onset of susceptibility of apple fruit to rotting by fungus pathogens W. R. SITTERLY AND J. R. SHAY 91

The role of the oospores of Peronospora parasitica in downy mildew of crucifers
DOROTHY MCMEEKIN 93

Identifying two sweet potato viruses with paper chromatography ..... G. Loebenstein 98

Virus diseases of sweet potatoes in Israel ..... G. Loebenstein and I. Harpaz 100

Host range, pathogenicity, and taxonomy of Ascochyta imperfecta
L. K. Edmunds and E. W. Hanson 105

Effects of foliar sprays of Cytovirin on susceptibility to and transmissibility of potato virus Y in pepper ..... John N. Simons 109

Release and preservation of virus by roots ..... C. E. Yarwood 111

The development of stem rust on wheat leaves treated with some sugars and sugar alcohols ..... William Silverman 114

A strain of Pseudomonas fluorescens antagonistic to Pseudomonas phaseolicola and other bacterial plant pathogens
Moises Teliz-Ortiz and Walter H. Burkholder 119

The nature of sexuality in Phytophthora infestans
J. Galindo A. and M. E. Gallegly 123

Development of safflower varieties resistant to Phytophthora root rot
C. A. Thomas, D. D. Rubis, and D. S. Black 129

A toxin extracted from Marquis wheat infected by race 38 of the stem rust fungus
..... William Silverman 130

Frozen-lima-bean agar for culture and storage of Phytophthora sojae
Oscar H. Calvert, Leonard F. Williams, and Marvin D. Whitehead 136

The effect of nitrogen sources and glucose on the pathogenesis of Fusarium solani f. phaseoli ..... T. A. Toussoun, Shirley M. Nash, and William C. Snyder 137

Free amino acids and amides in healthy and virus-infected cherry and peach leaves
Theodor O. Diener 141

The response of corn to inoculation with Diplodia zeae and Gibberella zeae
D. C. Foley 146

Control of internal cork of sweet potato by isolation
W. J. Martin and E. J. Kantack 150

Some effects of sting and stubby root nematodes on grapefruit roots
Marie S. Standifer and V. G. Perry 152

Transmission of several plant viruses by phenol-water extracts of diseased tissues
David E. Schlegel 156

The genetics of compatibility in Cochliobolus carbonum ..... R. R. Nelson 158

A wilt disease of peach and pear seedlings caused by a strain of Penicillium funiculosum ..... T. O. Diener and M. L. Weaver 161

Mode of action of nystatin on some filamentous fungi
Norman W. Tape, R. A. Cappellini, and B. H. Davis 163

The partial purification and biological activity of an antifungal antibiotic produced by a strain of Streptomyces griseus
Peter H. Tsao, Curt Leben, and G. W. Keitt 169

Physical and chemical properties of clover mosaic virus
P. R. Fry, R. G. Grogan, and J. W. Lyttelton 175

PHYTOPATHOLOGICAL NOTES

Susceptibility of various apple varieties to the oak wilt fungus ..... George J. Bart 177

Mechanism of acumulation of Meloidogyne incognita acrita around tomato seedlings
B. F. Lownsbery and D. R. Viglierchio 178

Some observations on Erwinia tracheiphila, the causal agent of the cucurbit wilt
Walter H. Burkholder 179

No. 3—MARCH

The effects of Meloidoygne incognita and M. hapla on the growth of Kenland red clover and Atlantic alfalfa ..... Richard A. Chapman 181

The causal agent of bacterial brown rot of Cypripedium orchids
Donald D. Sutton, Peter A. Ark, and Mortimer P. Starr 182

The effect of seed potato dip treatments on the incidence of sweet potato sprout decay caused by Diaporthe batatatis
Robert H. Daines, Eileen Brennan, and Ida A. Leone 186

Flowering cherry, a reservoir of the little cherry virus ..... J. M. Wilks and E. L. Reeves 188

Cercospora blight of snapdragon ..... Curtis R. Jackson 190

Variations in respiratory responses in Fusarium-infected tomato plants
R. P. Scheffer 192

Magnesium nutrition of Nicotiana tabacum in relation to multiplication of tobacco mosaic virus ..... Robert J. Shepherd and Glenn S. Pound 195

Electrophoretic and immunochemical studies of proteins in cabbage infected with Fusarium oxysporum f. conglutinans
R. Heitefuss, D. J. Buchanan-Davidson, M. A. Stahmann, and J. C. Walker 198

Victoria-type resistance to crown rust separated from susceptibility to Helminthosporium blight in oats ..... H. H. Luke, H. E. Wheeler, and A. T. Wallace 205

Hosts for differentiating oat loose-smut races of the southeastern United States
H. H. Luke, D. D. Morey, and S. J. Hadden 209

Effect of nitrogen, phosphorus, and potassium concentrations on the development of Gibberella stalk- and root-rot of corn ..... Paul Thayer and Lansing E. Williams 212

The effect of pH and minerals on the hatching and survival of Meloidogyne incognita incognita larvae ..... J. R. Loewenberg, T. Sullivan, and M. L. Schuster 215

Physiologic specialization in Helminthosporium turcicum ..... Alice L. Robert 217

The mycoflora of peanuts in storage ..... Urban L. Diener 220

Asexual variants of Melampsora lini ..... H. H. Flor 223

Vein necrosis, another systemically infectious strain of alfalfa mosaic virus in bean
W. J. Zaumeyer and Graciano Patino 226

Isolation of virus X from "immune" varieties of potato, Solanum tuberosum
A. P. Benson and W. J. Hooker 231

PHYTOPATHOLOGICAL NOTES

The effect of tobacco mosaic virus on tomato yield ..... P. V. V. Weber 235

Growth of apple seedlings in relation to soil temperature and inoculation with Pratylenchus penetrans ..... W. F. Mai 237

Book listings 238

No. 4—APRIL

Report and abstracts of the 1959 meeting of the Northeastern Division of the American Phytopathological Society 239

Report of the 51st annual meeting of the American Phytopathological Society 242

The occurrence of a variety of enzymes hydrolyzing cell wall polysaccharides in apples rotted by Botryosphaeria ribis
John H. McClendon, G. Fred Somers, and J. W. Heuberger 258

Adaptation of the corn leaf blight fungus to a resistant and a susceptible corn host
Alice L. Robert and G. F. Sprague 261

Corynespora blight of sesame ..... William J. Stone and John P. Jones 263

Isolation of a fungitoxic compound from carrot root tissue inoculated with Ceratocystis fimbriata ..... Patricia Condon and Joseph Kuc 267

A quick method of preparing barley embryos for loose smut examination ..... Donald J. Morton 270

Effect of soft rot bacteria and pectolytic enzymes on electrical conductance of witloof chicory tissue ..... B. A. Friedman and M. J. Jaffe 272

Germination of oospores of Aphanomyces euteiches embedded in plant debris ..... Albert L. Scharen 274

Streptomycin absorption in diseased and healthy hop tissues and its effect on the hop downy mildew organism and mildew development ..... Joseph M. Ogawa, Arthur H. McCain, and Dennis H. Hall 278

A bacterial brown rot of parsnip roots ..... Walter H. Burkholder 280

Effect of culture substrate on the virulence of single-basidiospore isolates of Pellicularia filamentosa ..... Asa C. Sims, Jr. 282

Soil indexing for pea root rot and the effect of root rot on yield ..... T. P. Reiling, T. H. King, and R. W. Fields 287

Studies on the stripe mosaic of barley, including effects of temperature and age of host on disease development and seed infection ..... G. P. Singh, D. S. Arny, and G. S. Pound 290

The natural occurrence of tobacco ringspot virus ..... John Tuite 296

Comparison of cultural variants of Alternaria sesami ..... S. Z. Berry 298

Effects of temperature and moisture stress on the lettuce powdery mildew fungus ..... W. C. Schnathorst 304

Wild sources of blueberry stunt virus in New Jersey ..... M. T. Hutchinson, A. C. Goheen, and E. H. Varney 308

The identity and host relations of the potato late-breaking virus ..... W. B. Raymer and J. A. Milbrath 312

Influence of soil moisture stresses on the development of the root knot nematode ..... Houston B. Couch and James R. Bloom 319

PHYTOPATHOLOGICAL NOTES

Gall induction by Meloidogyne incognita incognita by surface feeding and factors affecting the behavior pattern of the second-stage larvae ..... J. R. Loewenberg, T. Sullivan, and M. L. Schuster 322

Clones of red clover resistant to four isolates of bean yellow mosaic virus ..... Stephen Diachun and Lawrence Henson 323

Isolation of victoxinine from cultures of Helminthosporium victoriae ..... Ross B. Pringle and Armin C. Braun 324

Colletotin, a toxin produced by Colletotrichum fuscum ..... Robert N. Goodman 325

Loss caused by late infection of cantaloupes by the curly top virus ..... R. A. Flock, E. F. Laird, Jr., and R. C. Dickson 327

Book listings 328

No. 5—MAY

Role of cellulolytic enzymes in pathogenesis by Fusarium oxysporum f. lycopersici ..... Akhtar Husain and A. E. Dimond 329

Kansas aeromycology. VII. Smuts ..... S. M. Pady and C. L. Kramer 332

The severe bean mosaic virus, a new bean virus from Mexico ..... William D. Yerkes, Jr., and Graciano Patino 334

Predisposition of wheat seedlings to stem rust infection and development
HOSNI A. MOHAMED 339

Overwintering and migration of Ditylenchus dipsaci in organic soils of southern New York G. D. LEWIS AND W. F. MAI 341

The effect of pyrimidines and 5-phenylazopyrimidines on the multiplication of tobacco mosaic virus TORU SHIMOMURA AND TOKUZO HIRAI 344

Purification by density-gradient centrifugation, electron microscopy, and properties of Cymbidium mosaic virus M. K. CORBETT 346

Streptomycin absorption, translocation, and retention in hops CHARLES R. MAIER 351

Control of vascular wilt diseases of carnation by culture-indexing
PAUL E. NELSON, JAMES TAMMEN, AND RALPH BAKER 356

Bacterial spot of tomato as influenced by temperature and by age and nutrition of the host M. V. NAYUDU AND J. C. WALKER 360

Genetics of resistance in Capsicum annuum to two virus diseases A. A. COOK 364

Production of pectolytic enzymes and fusaric acid by Fusarium oxysporum f. conglutinans in relation to cabbage yellows
R. HEITEFUSS, M. A. STAHMANN, AND J. C. WALKER 367

Oxidative enzymes in cabbage infected by Fusarium oxysporum f. conglutinans
R. HEITEFUSS, M. A. STAHMANN, AND J. C. WALKER 370

Evolution of sexuality and pathogenicity. I. Interspecific crosses in the genus Helminthosporium R. R. NELSON 375

Pathogenicity and stability of strains of Corynebacterium insidiosum J. F. FULKERSON 377

Heat inactivation of stone fruit ringspot virus GEORGE NYLAND 380

Preparing nematode-free banana "seed" CLIVE A. LOOS AND SARAH B. LOOS 383

The influence of temperature on development of Phytophthora parasitica root rot of fuchsia S. S. PATIL AND ROY A. YOUNG 386

Radish yellows, a disease of radish, sugar beet, and other crops JAMES E. DUFFUS 389

Botryosphaeria ribis and its relation to a rot of apples J. F. FULKERSON 394

Scopolin production in potato tubers infected with Phytophthora infestans
J. C. HUGHES AND T. SWAIN 398

PHYTOPATHOLOGICAL NOTE

Survival of stem rust urediospores on dry foliage of wheat HOSNI A. MOHAMED 400

Book Listings 402

No. 6—JUNE

Gerardo Offimaria Ocfemia, 1891-1959 403

Healthy tip cuttings from some mosaic-diseased Asiatic chrysanthemums: some benefits and other effects of heat treatment PHILIP BRIERLEY AND PAUL LORENTZ 404

Comparative incidence of graywall and internal browning of tomato and sources of resistance HARRY H. MURAKISHI 408

Yields of sour cherry affected by ring spot and yellows viruses
E. J. KLOS AND K. G. PARKER 412

Host-parasite relations of Leptodiscus terrestris on alfalfa, red clover, and birdsfoot trefoil DONALD V. MCVEY AND J. W. GERDEMANN 416

Reversal of fungitoxicity of 8-quinolinol by amino acids and other chelators
GEORGE A. ZENTMYER, SAUL RICH, AND JAMES G. HORSFALL 421

Factors affecting field spread of potato virus Y in south Florida JOHN N. SIMONS 424

Serological studies of commercially produced plant-virus antisera ... COMMITTEE ON VIRUS TYPE CULTURE COLLECTION, AMERICAN PHYTOPATHOLOGICAL SOCIETY 428

Studies in the diseases of Mangifera indica. XI. The effect of boron on mango necrosis S. N. DAS-GUPTA AND C. SEN 431

Relation of nitrogen to disease development in rice seedlings infected with Helminthosporium oryzae ... S. B. CHATTOPADHYAY AND J. G. DICKSON 434

Induced mutation and cytological investigations in Helminthosporium oryzae S. B. CHATTOPADHYAY AND J. G. DICKSON 439

The histopathology of root-knot nematode infections in soybeans VICTOR H. DROPKIN AND PAUL E. NELSON 442

Relation of insects to internal cork of sweet potato in Louisiana E. J. KANTACK, W. J. MARTIN, AND L. D. NEWSOM 447

Relation of microclimates to the development of powdery mildew of lettuce W. C. SCHNATHORST 450

Genetic control of the host-parasite relationship in wheat powdery mildew H. R. POWERS, JR., AND W. J. SANDO 454

Reduction in pathogenicity and toxin production in diseased Helminthosporium victoriae ... G. D. LINDBERG 457

Potato virus F latent in an imported variety and resistance to the virus in an interspecific potato hybrid ... R. H. BAGNALL 460

A necrotic pod streak of pepper caused by tobacco mosaic virus HARRY H. MURAKISHI 464

Studies on yellow bud mosaic virus ... HARRY P. KARLE 466

PHYTOPATHOLOGICAL NOTES

Relations of variety, temperature, and seed immaturity to pre-emergence damping-off of castorbean ... C. A. THOMAS 473

A whole-mount technique for studying infected leaves ... P. K. ISAAC 474

Gamma radiation dose response of some decay pathogens LOUIS BERAHA, M. A. SMITH, AND W. R. WRIGHT 474

No. 7—JULY

Strawberry virus dissemination in Arkansas ... JOSEPH P. FULTON 477

Extracellular enzyme and toxin production by Fusarium oxysporum f. lini E. J. TRIONE 480

The HCN content of flax in relation to flax wilt resistance ... E. J. TRIONE 482

Influence of substrate on spore size of Alternaria melongenae G. RANGASWAMI AND C. N. SAMBANDAM 486

Control of Cercospora leaf spot of bananas with applications of oil sprays based on the disease cycle ... H. HARVEY KLEIN 488

Initiation of strawberry fruit rot caused by Botrytis cinerea ... R. L. POWELSON 491

The epinasty virus reaction of Kwanzan and Shiro-fugen flowering cherry J. A. MILBRATH 495

Tobacco mosaic virus in Nicotiana glauca ... J. G. BALD AND D. J. GOODCHILD 497

Symposium on training for the future in plant pathology: four invitational papers presented at the 51st annual meeting of APS:

Qualitative and quantitative aspects of the graduate curriculum in plant pathology GLENN S. POUND 500

Recruitment of superior students in plant pathology ... JOHN W. OSWALD 504

Improving the introductory courses in plant pathology ..... Russell B. Stevens 508

The training of students for research in plant pathology ..... George L. McNew 511

Rhizoctonia disease of bean as affected by decomposing green plant materials and associated microfloras ..... G. C. Papavizas and C. B. Davey 516

Effect of dry mature plant materials and nitrogen on Rhizoctonia solani in soil C. B. Davey and G. C. Papavizas 522

Interaction of potassium gibberellate and a stunting bean virus on beans, Phaseolus vulgaris ..... William D. Yerkes, Jr. 525

Physiologic specialization of Fusicladium effusum and its evaluation in vitro Richard H. Converse 527

Influence of environment on diseases of turfgrasses. 1. Effect of nutrition, pH, and soil moisture on Rhizoctonia brown patch James R. Bloom and Houston B. Couch 532

Studies on root rots of red clover in Wisconsin Neil D. Fulton and Earle W. Hanson 541

Intra- and inter-regional movement of uredospores of black stem rust in the upper Mississippi River Valley ..... G. N. Asai 535

Relative pathogenicity of two brown rot fungi, Sclerotinia laxa and Sclerotinia fructicola, on twigs and blossoms ..... Joseph M. Ogawa and Harley English 550

Rhizopus rot of peaches as affected by postharvest temperature and moisture W. L. Smith, Jr., and T. T. McClure 558

The effect of Rhamnus palaestina on the origin and persistence of oat crown rust races ..... I. Wahl, A. Dinoor, J. Halperin, and S. Schreiter 562

PHYTOPATHOLOGICAL NOTES

Fertilization of pycnia with urediospores and aeciospores in Puccinia graminis Ralph U. Cotter 567

A method for screening alfalfa plants for resistance to Pseudopeziza medicaginis Fred I. Frosheiser 568

No. 8—AUGUST

SECTION 1

Report and abstracts of the 1960 meeting of the Potomac Division of the American Phytopathological Society 569

Report and abstracts of the 1960 annual meeting of the Southern Division of the American Phytopathological Society 574

Turnip mosaic virus from two weed hosts ..... W. N. Arnold and J. G. Bald 578

Fungicide vapor action, ineffective in wheat smut control by seed treatment Laurence H. Purdy and C. S. Holton 581

Effect of temperature, pH, and various nutrients on growth of Cladosporium cucumerinum ..... D. L. Strider and N. N. Winstead 583

Virus-host relationships in plant tissue culture Jia-Hsi Wu, A. C. Hildebrandt, and A. J. Riker 587

Inhibition of fungi by filipin and its antagonism by sterols David Gottlieb, H. E. Carter, Lung-chi Wu, and J. H. Sloneker 594

The inheritance of X-ray-induced mutations to virulence in a urediospore culture of race 1 of Melampsora lini ..... H. H. Flor 603

Inoculum production and seedling evaluation of celery for resistance to Cercospora apii ..... H. H. Murakishi, S. Honma, and R. Knutson 605

Physiology of an isolate of Fusarium oxysporum f. cubense ..... Eugene M. Wilson 607

A crystalline hatching stimulant for the golden nematode W. V. Hartwell, R. V. Dahlstrom, and A. L. Neal 612

Antagonism and synergism among organisms associated with scale tip rot of lilies
J. G. Bald and R. A. Solberg 615

Pea introductions with partial resistance to Aphanomyces root rot John L. Lockwood 621

PHYTOPATHOLOGICAL NOTES

Pollen transmission of necrotic ringspot and prune dwarf viruses in sour cherry
R. M. Gilmer and R. D. Way 624

A calcium requirement for growth-regulator-induced resistance to Fusarium wilt of tomato Malcolm E. Corden and L. V. Edgington 625

No. 8—AUGUST

No. 9—SEPTEMBER

Abstracts of papers accepted for presentation at the fifty-second annual meeting of the American Phytopathological Society ... 627

Strains of Pseudomonas solanacearum in indigenous hosts in banana plantations of Costa Rica, and their relationship to bacterial wilt of bananas ... Ivan W. Buddenhagen 660

Pathogenicity and taxonomy of Geotrichum candidum ... Edward E. Butler 665

Resistance to the root-knot nematode, Meloidogyne incognita acrita, in Upland cotton seedlings ... Bill B. Brodie, L. A. Brinkerhoff, and F. Ben Struble 673

Time of appearance and size of local lesions produced by two strains of tobacco mosaic virus ... S. G. Wildman and Charles V. Ford 677

Effect of copper and glyodin fungicides on amino acid and sugar content and oxygen use of Colletotrichum capsici ... M. R. Siegel and D. F. Crossan 680

PHYTOPATHOLOGICAL NOTE

Culture media or viability studies and storage of Erwinia amylovora ... Jack F. Reinhardt and Dwight Powell 685

No. 10—OCTOBER

Takewo Hemmi, 1889-1959 ... Shigeyasu Akai and G. W. Keitt 687

The Helminthosporium gramineum complex and related species on cereals and forage grasses ... Samuel W. Braverman 688

Helminthosporium dictyoides and related species on forage grasses ... Samuel W. Braverman and J. H. Graham 691

Bacterial stem rot of Dieffenbachia ..... Donald E. Munnecke 696

Noninfectious crinkle leaf on Santa Rosa plum ..... T. S. Pine and L. C. Cochran 701

Influence of various factors on the deterioration of stored corn by fungi
Subhi A. Qasem and Clyde M. Christensen 703

Additional evidence that sweetpotato mosaic virus is a strain of tobacco mosaic virus
W. H. Sill, Jr., S. B. Lal, and Maria Salome E. del Rosaria 709

Properties of white clover mosaic virus from Indiana
J. B. Bancroft, J. Tuite, and G. Hissong 711

A serial dilution end-point method for estimating disease potentials of citrus Phytophthoras in soil ..... Peter H. Tsao 717

Variation in perineal patterns and host specificity of Meloidogyne incognita
A. C. Triantaphyllou and J. N. Sasser 724

Genetics of the allelic series at the Ml_a locus in barley and cultures of Erysiphe graminis f. sp. hordei that differentiate these alleles
J. G. Moseman and C. W. Schaller 736

Localized acquired resistance to tobacco mosaic virus ..... C. E. Yarwood 741

Etiology and characteristics of sweetpotato mosaic ..... O. H. Elmer 744

An apparent association of haploid lethal factors with two unique sorus types of oat smut ..... C. S. Holton and S. M. Dietz 749

The feathery mottle virus complex of sweetpotato ..... E. M. Hildebrand 751

Pathogenicity and morphology of some leguminicolous and related species of Stemphylium ..... J. H. Graham and K. E. Zeiders 757

Influence of environment on diseases of turfgrasses. II. Effect of nutrition, pH, and soil moisture on Sclerotinia dollar spot ..... Houston B. Couch and James R. Bloom 761

Etiology of wilt in Fusarium-infected cotton ..... N. S. Subba-Rao 763

Dominance of avirulence and monogenic control of virulence in race hybrids of Ustilago avenae ..... C. S. Holton and P. M. Halisky 766

Difference in the behavior of the Nicotiana longiflora wildfire resistance locus in tobacco varieties Burley 21 and Ky 61 ..... G. W. Stokes 770

Stimulation of broomrape seed germination
Shirley M. Nash and Stephen Wilhelm 772

PHYTOPATHOLOGICAL NOTES

Cochliobolus victoriae, the perfect stage of Helminthosporium victoriae R. R. Nelson 774

Distribution of Ceratocystis fagacearum in roots of wilt-infected oaks in North Carolina ..... John S. Boyce, Jr. 775

No. 11—NOVEMBER

Louis Otto Kunkel, 1884–1960 ..... Francis O. Holmes 777

Inheritance of stem rust resistance of C.I. 7232, a derived tetraploid oat
K. Sadanaga, H. C. Murphy, and R. Grindeland 779

Toxicity of acetic acid to Cladosporium cucumerinum
D. L. Strider and N. N. Winstead 781

Effect on root-knot nematode populations of resistant and susceptible cotton
Norman A. Minton, Eldon J. Cairns, and A. L. Smith 784

Lysis of mycelium of plant-pathogenic fungi by natural soil ..... John L. Lockwood 787

Effect of alcohols on spores of Sclerotinia fructicola and other peach fruit-rotting fungi in California ..... Joseph M. Ogawa and Stuart D. Lyda 790

Soil washing improves the value of the soil dilution and the plate count method of estimating populations of soil fungi — R. D. Watson 792

Bioassay of the systemic activity of cycloheximide semicarbazone in cucumber plants — J. R. van Diepen 795

Purification of turnip mosaic virus — Robert J. Shepherd and Glenn S. Pound 797

The effect of air temperature on multiplication of tobacco mosaic virus in susceptible and resistant pepper — Glenn S. Pound and G. P. Singh 803

Studies on resistance in radish to Fusarium oxysporum f. conglutinans — Joseph L. Peterson and Glenn S. Pound 807

Tetrin, an antifungal antibiotic — David Gottlieb and Hugh L. Pote 817

Methods for determining the reaction of sweet potato lines to soil rot — Lester W. Carlson and F. Ben Struble 822

Factors affecting zoospore production by Aphanomyces euteiches — Carmen Llanos M. and J. L. Lockwood 826

Mechanisms of fungitoxic action of n-dodecylguanidine acetate — Irwin F. Brown and Hugh D. Sisler 830

Elimination of the internal cork virus by culturing apical meristems of infected sweetpotatoes — L. W. Nielsen 840

Chemotherapy of cereal rusts with a new antibiotic — D. Davis, L. Chaiet, J. W. Rothrock, J. Deak, S. Halmos, and J. D. Garber 841

A biochemical response of apple tissues to fungus infection — E. H. Barnes and E. B. Williams 844

Characteristics of plant-virus inhibitors in rice, Oryza sativa — Robert P. Kahn, T. C. Allen, Jr., and W. J. Zaumeyer 847

The influence of cation competition, time, and temperature on the uptake of streptomycin by foliage — Robert N. Goodman and Herbert S. Goldberg 851

Tests with volatile fungicides in packages of citrus fruits during shipment to eastern markets — C. N. Roistacher, L. J. Klotz, and M. J. Garber 855

A soil infestation method for studying spores of Helminthosporium sativum — Michael G. Boosalis 860

PHYTOPATHOLOGICAL NOTES

Evidence of fungistatic action of petroleum oil against Mycosphaerella musicola inside banana leaves — L. Calpouzos, Alma Santiago, T. Theis, and C. Colberg 865

Control of the mint rust fungus, Puccinia menthae, by nickel salts — G. L. Farkas, G. Molnár, and Z. Király 866

Heterodera trifolii, a foliage pathogen of white clover — J. P. Ross 866

Conidial production from filter paper cultures of Helminthosporium vagans and Alternaria solani — R. J. Lukens 867

Sterilization of agar media with propylene oxide — W. L. Klarman and Jeweus Craig 868

No. 12—DECEMBER

Howard Austin Edson, 1875–1960 — Paul R. Miller 869

Selectivity of fungicidal materials in agar cultures — O. Vaartaja 870

Species differentiation of nematodes through host reaction in tissue culture. I. Comparisons of Meloidogyne hapla, Meloidogyne incognita incognita, and Nacobbus batatiformis — M. L. Schuster and T. Sullivan 874

Development of western gall rust in lodgepole pine — R. S. Peterson 876

Specialization among greenbugs in the transmission of barley yellow dwarf virus
W. F. ROCHOW 881

Some effects of 8-azaguanine on tobacco mosaic virus replication
R. C. LINDNER, P. C. CHEO, H. C. KIRKPATRICK, AND H. C. GOVINDU 884

Relationships among isolates of Pseudomonas syringae pathogenic on stone fruit trees
GERARDO PERLASCA 889

The black shank-root-knot complex in flue-cured tobacco
N. T. POWELL AND C. J. NUSBAUM 899

Bacterial stripe of corn ..... A. J. ULLSTRUP 906

The role of infested straw in the epiphytology of Septoria leaf blotch of barley
RICHARD W. LUTEY AND KARL D. FEZER 910

Host-parasite interactions of eight varieties of oats infected with race 202 of Puccinia coronata var. avenae ..... P. G. ROTHMAN 914
